

*Empower a Youth in India to Realize Their University Ambitions
& Change the Course of Their Life!*

A. Dinakaran

Mechanical Engineering

Dinakaran has already completed his first year of university studies in Mechanical Engineering, which he enjoys very much. As the child of two day laborers though, the family's financial situation is extremely tenuous. His brother is already at university in his third and final year of a degree in Computer Application. His parents cannot afford multiple school fees, however, and have asked Dinakaran to stop his studies and start earning something.

Dinakaran is resourceful and asked family members for their support, but no one was willing or able to help him. He has big dreams for his future but can only achieve them with financial support!

**For just \$30/month, you can make
Dinakaran's university dreams a reality!**

Dinakaran has been selected to join the next batch of Visions university scholars for 2022. Under this initiative, Dinakaran is eligible for financial support to cover his university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 6 years, we have sponsored 75 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And thirty (30) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just \$30/month or annual sponsorship of \$360, and we will keep you informed of your sponsored student's progress over the next year!
